XConnect to Share Expertise in VoIP Peering at Industry Conferences

LONDON, UK – JANUARY 16, 2006 — XConnect, the largest neutral VoIP peering provider worldwide servicing more than 75 VoIP service providers in 20 countries, announced today participation in the following upcoming events in the first quarter 2006.

VoIP peering allows operators to “identify” VoIP calls and exchange them end-to-end across IP networks, facilitating zero-cost settlement while preserving value-added services and advanced features for the benefit of subscribers.

Interested parties can view details of these events at www.xconnect.net

- January 15-18, 2006. Hugh Goldstein, Business Development Consultant, will present at the Pacific Telecommunications Council (PTC) in Honolulu, HI.
- January 24-26, 2006. Gary McDonald, VP, Sales, EMEA, will speak at Marcus Evans' Wholesale Interconnection Forum in London, UK.
- January 24-27, 2006. Eli Katz, Founder & CEO, will present about VoIP Peering on two separate panels throughout at the Internet Telephony Expo in Fort Lauderdale, FL. XConnect will also be exhibiting at the show.
- January 25-27. Gary McDonald, VP, Sales, EMEA, will speak at Marcus Evans' Strategic Pricing for Telecom Services and Content in Amsterdam, Netherlands.
- February 9, 2006. Eli Katz, Founder & CEO, will present at the IP Voice Meeting in Lisbon, Portugal.
- March 13-16. Eli Katz, Founder & CEO, will speak about ENUM at Pulvermedia's Spring VON conference in San Jose, CA. XConnect will also be exhibiting at the show.
- March 21, 2006. Eli Katz, Founder & CEO, will present at the VentureOne Summit, a Dow Jones Conference, in San Francisco, CA.

About XConnect Global Networks:

XConnect is the world's first and largest provider of 'Plug and Peer' VoIP interconnection services dedicated to connecting ITSPs and enabling rich multi-media end to end IP communication. Headquartered in London with offices and facilities in USA, Europe and Asia, XConnect is the largest neutral VoIP peering provider for ITSPs. XConnect's award-winning solutions comprehensively address interoperability, ENUM directory services, and security. XConnect provides peering services to 75 ITSPs in more than 20 countries enabling IP calls between VoIP end-users.

XConnect was founded in 2004 by Eli Katz, also co-founder and chairman of the UK's Internet Telephony Service Providers' Association. In early 2004, after working for a decade in senior positions in the telecoms industry, he envisioned how the IP communications industry could move forward and challenge the dominance of the legacy PSTN. He worked with industry leaders and partners in Europe and USA to design, develop and implement the XConnect vision. Eli is also the author of several patent pending VoIP directory and security systems. For more information on XConnect, please visit www.xconnect.net.
