“Europe is leading the way in deployment of IP Communications services, with respect to the core network and as well as consumer and business customer adoption. Sweden, host of VON Europe, has already more than 10% of its population utilizing Voice over Broadband services. XConnect, is the leading enabler of peering and registry services, and pleased to be sponsoring Europe’s first Peering and ENUM Summit at the largest European IP Communications conference,” said Eli Katz, CEO and Founder of XConnect.

**About XConnect Global Networks:**

XConnect is the leading neutral and trusted provider of federated VoIP Peering based on ENUM; enabling service providers and carriers to dramatically reduce the costs of communication, and enable rich multimedia IP communications on a cross-network basis. Headquartered in London with offices and facilities in the USA, Europe and Asia, XConnect provides ENUM and peering services to over 400 VoIP operators in more than 35 countries, and includes numerous PTTs and Tier1 customers. XConnect services include comprehensive multi-lateral signaling and interconnection of networks, centrally managed ENUM registries with local query functionality, advanced VoIP Security, and highly flexible settlement features. Founded by its management and backed by Tier1 Venture Capital firms such as Accel Partners and Venrock Associates, XConnect, with its technology partner Kayote Networks Inc., was selected by the cable industry in the Netherlands to operate the first nation-wide VoIP peering solution, and recently acquired the European carrier ENUM exchange, e164.info and US-based peering service IPeerX Inc.
