

Bridging the VoIP Islands™

FOR IMMEDIATE RELEASE

XConnect expands with new UK Headquarters and Opens Israeli Research & Development Facility

London, UK -- December 18, 2007 —XConnect, the world's leading provider of trusted and secure Federated IP Communications Peering, Interconnection and ENUM Registry services to the telecommunication industry, today announced an expanded London headquarters to accommodate its rapidly growing team, as well the establishment of a new Jerusalem, Israel based R&D facility.

Effective immediately, XConnect's new headquarters address is:
Cooper House, 316 Regents Park Road, London N3 2JX United Kingdom.

“The market for VoIP Peering continues to develop at a rapid pace” said Eli Katz, CEO. “We are pleased to share that our team and operations are scaling up to address these exciting opportunities globally.”

XConnect will be sharing its views on the global VoIP Peering marketplace in a Webinar tomorrow, December 19th at 4:30 GMT titled “Pre-Requisites for Successful VoIP Peering in Asia” In conjunction with iLocus.

About XConnect Global Networks:

XConnect is the leading neutral and trusted provider of federated VoIP Peering based on ENUM; enabling service providers and carriers to dramatically reduce the costs of communication, and enable rich multimedia IP communications on a cross-network basis. Headquartered in London with offices and facilities in the USA, Europe and Asia, XConnect provides ENUM and peering services to over 400 VoIP operators in more than 35 countries, and includes numerous PTTs and Tier1 customers. XConnect services include comprehensive multi-lateral signaling and interconnection of networks, centrally managed ENUM registries with local query functionality, advanced VoIP Security, and highly flexible settlement features. Founded by its management and backed by Tier1 Venture Capital firms such as Accel Partners and Venrock Associates, XConnect, with its technology partner Kayote Networks Inc., was selected by the cable industry in the Netherlands to operate the first nation-wide VoIP peering solution, and recently acquired the European carrier ENUM exchange, e164.info and US-based peering service IPeerX Inc.
