

# Number Intelligence for Voice

**XConnect**  
A Somos Company

Increase Precision, Performance  
and Trust in Your Voice Traffic

XConnect's global numbering intelligence enables you to protect, optimise and grow your voice business with accurate information on the ownership, characteristics and validity of phone numbers.

Our global numbering intelligence supports CLI validation, B-number analysis and Number Portability, giving you greater visibility and control over your voice traffic.

## Fraud Management

Enhance your capabilities in the fight against voice fraud by identifying high-risk and unallocated number ranges.

## OBR Mitigation

Use global number intelligence to reduce disputes and stop future losses from Origin Based Rating (OBR).

## Routing Optimisation

Increase routing efficiency, reduce billing complexity, and increase margins by attracting new service traffic.

## Advanced Services

Route advanced services like HD Voice, RCS, and IoT to competitive networks, even if a number is ported.

Our Global Numbering Range (GNR) data saved \$75 million per month for one of the world's biggest eCommerce brands. This reduced its fraud from 75% to 0.15%.

**75%**  
**0.15%**

# Benefits

## Cost Savings

Stop unnecessary losses from voice fraud and OBR surcharges while optimising routing to increase long-term profitability.

## Predictable Margins

Avoid carrying risky traffic to benefit from predictable margins while reducing disputes and losses months after the traffic was carried.

## Greater Control

Price your services accurately, be a trusted and reliable partner and deliver an optimised experience for customers.

## Expert Support

Benefit from advice, consultation, implementation and support from telecoms experts that are committed to solving your challenges with new intelligence.

## New Visibility

Gain new visibility into the traffic you carry and use it to increase profitability and gain market share.

## Rapid Deployment

Choose between simple deployment models that enable new efficiencies, optimal operations and growth acceleration.

## Why Choose XConnect?

We have the **largest and most trusted data sets** in international telecoms and are continually refining them to ensure absolute accuracy.

We are solely focused on making it simple to use telecoms data in your operations with an **agile, collaborative and consultative** approach.

We have **more than 17 years of experience** in successfully using data to solve a range of carrier and operator challenges.

The industry comes to us when they need to publish changes as they know they can depend on us having the latest information on demand. We even helped the industry handle large scale routing and number range ownership adjustments such as mergers and MVNO hosting changes.
